PACKAGE WATER TREATMENT PLANT, FOR LANGERPURA SATELLITE TOWN

ERRA under AJ&K Urban Development Program is constructing Langerpura Town in Muzaffarabad through Chinese Contractor under Design-Built concept. The Contractor has proposed Package Water Treatment Plant technology for supply of water in town. The surface water from SAHELI NULLAH, located upstream of Langerpura town is to be used as source of water. The required water treatment plant capacity is estimated as 1.25 cusecs for which NESPAK intends to outsource the work comprising but may not be limited to the following aspects:

- 1) Visit(s) to site to assess the quantum of work and Project requirement
- 2) Review of the water availability from the identified source and determination of water treatment requirement
- 3) Evaluation of the Technical Proposal(s) received from the designer / vendor of the Contractor.
- 4) Review of detailed BOQ, evaluation of cost estimates based on prevailing market rates substantiated with supporting quotations from manufacturers. Rate analysis are required to be submitted for all the items.
- 5) Evaluation of the Technical Specification

Interested firm / individual are required to submit the following by May 26, 2014 in the office of General Manager, NESPAK House, DM&R Division, 3rd Floor, Sector G-5/2, Islamabad:

- 1) Previous experience of such works
- 2) Lump Sum Financial Proposal covering man-month and all sorts of expected direct cost.

Timelines for submission:

- 1) Technical Proposals of the Contractor / designer are to be evaluated within 10 days of award of work
- 2) Priced BOQ of the Contractor / designer are to be evaluated within next 07 days.
